- **Current experience:**

IVF

I am currently almost sub specialized in this rapidly evolving area of Gynaecology.

Actively involved in running the Assisted Conception Unit with the unit Director, and teaching junior doctors and nurses the different aspects of reproductive medicine.

Counselling infertile couples, ovarian super ovulation programmes, and intrauterine Inseminations.

Performed a series of procedures of egg collection and embryo transfers (200 cycles/annum). Assessing ovarian response using transvaginal ultrasound and hormonal profiles.

Good knowledge of Human Fertilisation and Embryology Authority regulations and code of practice.

Played a significant role in enabling the Assisted Conception Unit to increase its annual number of IVF treatment cycles from 120-200/annually and a great number of intra-uterine inseminations.

Prominent experience in PESA, TESE and testicular biopsy.

A good experience in fertility laparoscopic and hysteroscopic cannulation of fallopian tubes.

Transvaginal scanning for follicular monitoring and general gynaecological conditions.

Fertility clinic weekly.

Weekly general gynaecology clinic.

Experienced in transvaginal scanning.

Laparoscopic adhesiolysis, ovarian drilling and ablation of endometriosis.

Performed large series of Hysteroscopies.

- **Obstetrics:**

- **Safe and effective ante-natal care of high risk pregnancies.**
- **Skilled in conducting twins and breech deliveries vaginally and abdominally.**
- **Gained considerable experience in management of high risk pregnancies & those with medical problems.**

- **Previous appointments:**

1/3/1993 – 1/3/1997 Registrar in Obstetrics and Gynaecology, Craiova University Hospital (4 years). This is a big unit with approximately 5000 deliveries/annum.

- **Consultants and Professors:**

- **Prof. dr. Maria Cerna... Prof.1 Obs. and Gynaec. Craiova University Hospital – Romania.**

- **Prof. dr. Rica Nicolae... Prof.11 Obs. And Gaynae. Craiova University Hospital – Romania.**

 - **Onther 6 Congresses of Obs and Gyne 2006-2012**
- **Clinical attachment:**
James Cook University Hospital, Middlesbrough.
During this post, I had the opportunity to shadow consultants and specialist registrars. This gave me insight into the British medical system and made me familiar with the patient's pathway from primary care to secondary or tertiary care. It also gave me the opportunity to examine the assisted

reproduction technologies used in the United Kingdom and compare the protocols used to those used in other countries.
Jan-March 2009
